

Hi Helen

I'm afraid that due to a software compatibility issue, Amazon are not participating in the easyfundraising Donation Reminder (previously Find & Remind toolbar) anymore, as a result the easyfundraising Donation Reminder will either not appear when you visit Amazon, or will display that no donations are available depending on which browser you are using.

This just means that donations via the Donation Reminder are not available, BUT you can still raise donations by shopping with Amazon.

To make sure that your cause is still receiving donations from your purchases with [Amazon.co.uk](http://www.amazon.co.uk), Amazon Local, Amazon Prime and Amazon Instant Video we wanted to let you know the alternatives available so you can still claim your donations.

- Search for and visit Amazon via [www.easyfundraising.org.uk](http://www.easyfundraising.org.uk) instead of going directly to their website
- Bookmark the Amazon listing with easyfundraising <http://www.easyfundraising.org.uk/amazon/> so you can go straight to their listing with us and then go shopping

We are also going to be releasing the easyfundraising App for Apple devices shortly, you will be able to use this to shop on your iPhone or iPad to raise donations and we will contact you when it is released so that you can be one of the first to make the most of it!

If you have any additional questions about what this might mean for you and/or your cause, please contact me directly by replying to this email.

We look forward to helping you continue to raise funds for your cause now and in the future.
