

Elodie's Symmetry Challenge

This is a maths challenge for the whole school. I would like you to design a symmetrical model. You can make it from whatever you want to. Look at the pictures at the bottom for some ideas.

You can either photograph your model or bring it in to be photographed, but we won't be able to keep the models in school. We will display all of the photos for everyone to see after the deadline.

I will be judging the competition with Mrs Stroud. Your entries need to be in school by Wednesday 30th November. Please remember to include your name and class on your entry. Happy making!
